SEEK TO FORCE GRAND HOTEL TO BANKRUPTCY

Conspiracy to Gain Possession of Grand Hotel Property and "Freeze Out" the Minority Stockholders Hinted in Proceedings Instituted in Federal Court By Alleged Local Creditors Who Seek to Block Foreclosure Sale

Proceedings to force the Grand Hotel Co., Ltd., of Waikiki, Maui into bankruptcy were begun in federal court yesterday afternoon on behalf of three purported creditors, E. W. Quinn, local plumber; Teves & Joaquin, a Honolulu firm, and Levi Strauss & Co. of San Francisco. The alleged claims of the three creditors amount to \$4675.33. Deputy U. S. Marshal Silva left for Maui last night to serve the papers.

The object of beginning the proceedings at this time apparently was to block a foreclosure sale of certain of the hotel property scheduled to be held at noon today at the Waikiki court house. According to the petition of the alleged creditors, the foreclosure right was granted by the Maui circuit court to C. D. Lufkin, who is said to hold a mortgage on certain of the hotel properties.

In the proceedings filed yesterday Levi Strauss & Co. claim the hotel owes them \$1089.63 for merchandise; E. W. Quinn seeks the collection of an alleged debt of \$2448, and Teves & Joaquin claim indebtedness by the hotel in the sum of \$1317.70. It is alleged that the Grand Hotel now carries an indebtedness of approximately \$14,000 and that the value of the property is about \$70,000.

The petition now before federal court is the aftermath of several actions for alleged debt filed in the local circuit court by E. W. Quinn. According to the petition, the property of the hotel has been shifted about on at least two occasions by mortgages. It is alleged that on January 30, this year, with a view to giving security to certain purported creditors, a portion of the hotel property was conveyed to one Frank Medeiros, trustee for the alleged creditors, which property included that conveyed in a previous indenture mortgage to C. D. Lufkin. But it is alleged that the second mortgage was not made of record until March 17, 1917.

Hints of an alleged conspiracy to gain possession of the hotel property and "freeze out" the smaller minority stockholders, are given in the proceedings filed yesterday. In that portion of the petition which reads as follows:

"Your petitioners are informed . . . and upon such information . . . and hence allege . . . that the said C. D. Lufkin and the said cestui que trustant under the indenture of mortgage of January 30, 1917, with other principal stockholders of the alleged bankrupt, have combined and conspired together to purchase said hotel premises and said stock, furniture and fixtures at said foreclosure sale at the least possible amount and freeze out the smaller and minority stockholders of the alleged bankrupt."

Holders of Liens Omitted

In this connection the petition alleges, in part, as follows: "That although they knew of the indebtedness of said mortgage of January 30, 1917, and of the liens filed by the petitioners herein, E. W. Quinn and Manuel T. Teves and Joseph Joaquin, copartners as aforesaid, they purposely omitted them as parties respondent to said foreclosure proceedings, but subsequently and on, to-wit, the 29th day of June, 1917, they secured the said Frank Medeiros, trustee, as mortgagee in said mortgage of January 30, 1917, and on said last named date the said Frank Medeiros, as such trustee, filed in the circuit court of the second judicial circuit of the territory of Hawaii, his bill of foreclosure of said mortgage, with the design and purpose to hold said mortgage and said foreclosure proceedings as a club to prevent bidders upon said foreclosure sale so fixed for the 14th day of July, 1917, as aforesaid, from bidding therefor. In the amount of the reasonable value thereof, and the said C. D. Lufkin, trustee and said cestui que trustant, with said principal and majority stockholders, have combined and conspired together to buy the said hotel premises for practically nothing, and for a sum greatly less than the reasonable value thereof and thereby secure said hotel premises and at the same time hold against the alleged bankrupt a deficiency judgment in the amount of the deficiency that may result, while at the same time utilizing the weapon of foreclosure proceedings as instituted by them as aforesaid in respect of the mortgage of January 30, 1917, to the said Frank Medeiros, trustee."

WAIALUA'S CROP RUNS CLOSE TO 30,400 TONS

Waialua's 1917 crop will run very close to the estimate of 30,400 tons. This is the belief of directors of the big sugar company who visited the plantation (Waialua Agricultural Co., Ltd.) on Thursday.

The directors, including F. C. Atherton, G. P. Castle, C. H. Atherton, C. H. Cooke, W. L. Hopper, T. H. Petrie and E. D. Tenney, visited the plantation and were shown around by Manager W. W. Goodale.

Everything was found satisfactory, the grinding season is going along nicely and should end by some time in September.

CARD OF THANKS.

The family of the late Mrs. Mary Kline McGuire wishes to express their heartfelt thanks to their many friends who so kindly remembered them in their late bereavement.—Adv.

REPUBLICANS TAKE PEKING

China's republic will live and the uprising against it which was fomented by royalist military leaders will be suppressed by the force of the republican sentiment in all of the provinces, thinks Lio Toh-tai Tatum, who passed through Honolulu yesterday on his way to Paris. There he will take up the position of military secretary to the Chinese legation. He is accompanied by Lang Tsien.

Having been in Japan within the last few months Mr. Lio was red-clothed when asked through an interpreter of the conditions in China today. He did assert his faith in the republicanism of the Chinese people.

"China has too many troubles of her own to have much direct interest in the war in Europe at present," said Lio. "The fourth revolution in the country has been a trying test to the republican government, but it cannot overthrow it."

Concerning the Japanese policy toward China Lio declared that he felt the Chinese were able to work out their own destiny themselves and would not be troubled by the Japanese.

AMERICAN HURT IN FIGHT (Special Cable to Nippu Jiji)

TOKIO, Japan, July 13.—A full surrender by General Chang Hsun is expected hourly. The bombardment of Peking is continuing with renewed vigor. Reports were reaching Tokyo today that General Chang has fled to the protection of the Dutch legation.

A steady bombardment occurred throughout the day, and this morning it was reported that the shells from the republican guns had taken effect, causing a number of deaths among the monarchists. Three British, one Japanese, one Italian and one American were wounded in the attack on the Chinese capital.

An aeroplane manned by one of the leading republican aviators has been hovering over Peking, and the strongholds of the monarchists have been located.

FOOD OFFICIALS TO INVESTIGATE BANANA WASTE

(Continued from Page 1)

Fields into rice is shown in figures compiled by a large banana grower showing the decreased export of the fruit within the past few years.

Since 1915 there has been a continual decline in the number of bunches of bananas shipped out of the territory. During 1915, 288,479 bunches were shipped. Since the beginning of this year the shipments have totaled only 187,971, and within the limitations of the present freight crush it is predicted that the total shipments at the end of the year will be smaller than in years.

In the markets and on the other side of the island the loss of bananas that are merely rotting away because they cannot be sold, totals far over 1000 bunches a week. Big banana shippers are receiving orders to send all they can to the San Francisco market, where the fruit brings a price of \$1.75 to \$2.25 a bunch, but the Chinese and Portuguese who are raising the fruit on the other side of the island, are getting ready to quit raising bananas and already some of the land formerly devoted to this crop is being turned into rice fields.

Japanese liners have room for the bananas that the coast wants, but cannot carry them because of the coastwise shipping law. The last time the Tenyo Maru left this city it had room for some 2000 bunches of bananas, according to one of the large planters. One large shipper said this morning that if the cargo space were available he could sell over 100,000 bunches of bananas a year, but this year his total export will probably be under 50,000 bunches.

The Matson liners are doing all they can to relieve the situation, say the shippers, but with other freight to carry also they must limit the number of bananas.

"In 1915 the Pacific Mail boats gave us enough room to export our crops, but when they were taken off the line we were unable to export as much as we wished," said one of the planters this morning.

"Since then the exports have been decreasing on account of the lack of steamers and the fruit is going to rot. On each week's steamer I am allowed between 700 and 800 bunches. This last week I lost 561 bunches because they could not be shipped."

"The bananas are put on the market in the city at between 20 and 30 cents a bunch, and many of them are rotting."

The situation, it is said, will be brought to the attention of the governor by one of the planters.

MURDERER MAY STAY IN ITALY

ROME, Italy, July 14.—The Italian foreign office has refused to consent to the extradition of Alfred Cuccini, the Italian who murdered Hiss Ruth Cruger in his shop in New York and fled to Italy. It is held that such extradition would violate the fundamental law of the kingdom.

REJECTED LAND WINNER SEEKS COURT ORDER FOR REINSTATEMENT ON LIST

Julia Leone, who was 13th on the list of those who drew lots in the Kapa, Kauai, homestead lots, has filed in circuit court an amended petition in which she seeks by mandamus to compel Walter A. Engle, chief clerk in the territorial land office, to reinstate her in the list of those entitled to lots.

ARMY-NAVY 'Y' TO OPEN MONDAY

Beginning Monday the old Royal Hawaiian hotel will be conducted as the Army and Navy Y. M. C. A., and although it is not entirely completed men will be accommodated as far as possible.

"It was our plan to close the place for repairs," said Secretary Horn this morning, "but when we came to think over how badly the boys need a place to stop for headquarters we decided to go ahead and do the best we can. We have some rooms that are ready to use for sleeping quarters. The service will not be of the best but we will take care of the boys as best we can. Meanwhile the repairs and reconstruction will go forward. We have no secretaries but we are going ahead with what we have so that the Army and Navy Y. M. C. A. for Honolulu will be a reality the day we take control."

This morning the attorneys made their report on the title of the property and everything is clear in the transaction so that the property will be turned over to the National Army and Navy Y. M. C. A. today as planned.

Some people reading the J. A. Wakefield interview of last evening gained the erroneous impression that the National Y. M. C. A. has borrowed the money to carry its proportion of the purchase price. The remark that the national body did not have money available referred to the immediate cash. The purchase has been made, however, and the national organization is doing its part.

D. L. CONKLING, city treasurer: While H. Gooding Field is examining the books of the last board of supervisors I wish he would go back just one day to December 30, 1914, and find out how the last Democratic administration made up its cash basis fund. Also how there came to be a cash shortage of \$7341.99 in the sewer fund.

CHILD SAVED FROM DROWNING AT WAIKIKI

Cards have been received announcing the marriage of Mr. Carl Sager to Miss Elizabeth Nelson of Minneapolis, Minnesota, on June 28, 1917. Mr. Sager has been a teacher in Oahu College for the last two years, and sailed for the States early in June.

After spending the night at the emergency hospital, A. Nelson, manager of the Honolulu Trest & Awning Company, who was painfully injured when an automobile he was driving turned over on Nuuanu avenue yesterday afternoon at 4:15 o'clock, was removed to his home today. D. H. Cashman, a sailmaker who was riding with him at the time, was uninjured.

The child was wading and got beyond its depth. There were no bathers nearby so the women walked fully clothed into the water and pulled the youngster out of danger. They themselves got wet up to the neck and their clothes were nearly ruined by salt water.

It is believed the little one may have been the child of one of the women, who were watching it paddle around and did not think it in danger.
